Sex Work Advisory Services

Prostitution/sex work is a social reality. The living and working conditions of women* within the different areas of the sex industry vary considerably. All individuals involved in the sex industry are affected by discrimination and stigmatisation on account of their occupation. Women* in precarious employment are often also affected by other social problems such as poverty, homelessness and a lack of health care.

The Sex Work Advisory Services with facilities in Sperrgebiet St. Georg and Sperrgebiet St. Pauli offer women* who are involved in the sex industry advice, accompaniment and support.

We respect the decision of women* to work in the sex industry and work strictly according to their wishes.

Our services aim to improve the living situation of women* involved in the sex industry.

* We use the gender star (asterisk) as a means of avoiding bias towards a particular sex or social gender.
